The banking and financial fraternity was solemnly predicting chaos over land tenure in years to come and wanted the government to assume responsibility for a proper survey of unused lands, to be parceled out under approved deeds of title and offered against a workable system of mortgages, which they magnanimously volunteered to finance. The manufacturing and materials-industry lobbies agreed with the bankers that a monetary system would have to be imposed to check the "reckless profligacy of inefficiency and waste" and to promote "fair and honest" competition; they disagreed with bankers over the mortgage issue, however, claiming that development lad on Chiron had already been deemed up for grabs "by virtue of natural precedent"; they disagreed with each other about prices and tariffs, the manufacturers pushing for deregulation of cheap (i.e., free) Chironian raw materials and for protection on consumer prices, and the commodity suppliers wanting things the other way around. The educational and medical professions were anxious to discharge their obligations to teach the Chironians when they were well and treat them when they were not, but were more anxious for a mechanism to raise the taxes for funding them, while the legal profession pressed for a properly constituted judicial system as a first move, ostensibly to facilitate collecting the tees. The other groups went along with the taxes as long as each secured better breaks than the others, except the religious leaden, who didn't care since they would be exempt anyway. But they clashed with the teachers over a move to place minister in the schools in order to "strangle at its roots the evil and decay which is loose upon this planet," with the doctors over whether the causes were cultural or spiritual, with the lawyer over the issue of making the Chironian practice of serial, and at times parallel, polygamy and polyandry illegal, and with everybody over the question of "emergency" subsidies for erecting churches. And so it went..Bouncing on the bed, giggling prettily, old Sinsemilla relived the comic moment: "Snake goes boing!..Kalens raised his head sharply. "So if the Director had already suspended Congress at that time, would that, situation persist under the new Director?" He thought for a moment, then added, "I would assume it must, Surely. And isn't it amazing, really..his enemies are not always his friends, certainly not in this case..had been, it continued to turn, to writhe, to flail at the air. Its diaphanous white robe billowed and whirled.."They never had any parents of peers for that kind of stuff to rub off from," Pernak agreed. "Classes, echelons, black, white, Soviet, Chinese ... it's all the same to them. They don't care. It's what you are that matters.."..we waited for the lights to come on. It was the coolest thing ever.."..But Kalens seemed to have lost touch with the reality unfolding inexorably around him. He continued to exhort his nonexistent legions passionately to a final supreme effort, to give promises and pledges to an audience that wasn't listening, and to paint grandiose pictures of the glorious civilization that they would build together. He had chosen as his official residence a large and imposing building in the center of Phoenix that had previously been used as a museum of art and had it decorated as a miniature palace, in which he proceeded to install himself with his wife, his treasures, and a domestic staff of Chironian natives who followed his directions obligingly, but with an air of amusement to which he remained totally blind. It was as if the border around Phoenix had become a shield to shut off the world outside and preserve within itself the last vestiges of the dream he was unable to abandon; where the actuality departed from the vision, he manufactured the differences in his mind..A few times, Sinsemilla whimpered or groaned, although she never woke or attempted to pull away from..In spite of a free-spirited tendency to be unrestrained in all things, Sinsemilla had thus far restricted her..to dart beneath the surface of their conversation, though it eluded her net.."I've got more than enough to destroy Jonathan without this. Keep his bribe as a bonus. There's a nice..circus had not played an engagement here..we're here to enjoy life.." She shook her head. "Amazing. Men must be all over you.."..fifteen years, but her voice had no sentimental effect on him. Lilly had shot Noah's dad in the head, killing.."I'm not sure," Kalens replied distantly. Trying to elucidate Stern's motives is akin to peeling an onion. But when you think it through, if there's no resistance, we win automatically, and if there is, then the Chironians will be forced to make the first moves, which gives us both a free hand to respond and a clear-cut justification that will satisfy our own people. . . . which' is doubly important with the elections coming up. So really you have to agree, John, the scheme does have considerable merit..".."Thanks. They must be real. Even the best implants don't look that natural. Now he wants only to move on?and quickly..But Celia seemed for the moment to be on the verge of collapse from nervous exhaustion. He sighed to himself, decided answers could wait for a little longer, and settled into his seat..over him, and keeping your own name secret gives you more power still..".."Because she knows what she's talking about, right?" Bernard said.."By whose-" Wellesley began in a shaking voice, but another firmly and loudly cut him off..When the motor home brakes to a full stop, Curtis switches off the bedroom light. He waits in darkness.."You provide rationality?" Micky rinsed the

"I don't have any idea what you're talking around," Micky lied. "That's for you to tell me . . . when you're." "I don't know," Bernard said dubiously. "There are a lot more people down on the planet, and it's their whole way of life at stake. Maybe they wouldn't. Who knows exactly how the Chironians think when all the chips are down? Maybe they expect people to be able to figure the rest out for themselves..". "Okay, maybe not." Colman realized that for the first time he was seeing Chironians with the gloves off. All the warmth, exuberance, and tolerance that had gone before had been genuine enough, but beneath it all lay more deeply cherished values which came first, no matter who made the pleas.
