Lechat. Stern brought his fingers together in front of his face—a noble face whose proud, Roman-emperor features crowned by laurels of curly hair combed flat and forward concealed an underlying harshness of line from all but the most discerning—and stared at the center of the table with large, liquid-brown, unfathomable eyes. "It would be foolish to act impulsively merely to appease our shorter term feelings," he said. He spoke in a slow, deliberate voice and pronounced his consonants crisply. "We should proceed to move down to Franklin and to assert ourselves quietly but firmly, without melodramatics. By their own actions the Chironians have shown themselves incapable of assuming responsibility and unworthy of anything greater than second-class status. Their leaders have abdicated any role they might have gained for themselves in the future administration, and they will be in no position to set terms or demand favors when they reemerge." He paused, and then turned his eyes to Howard Kalens. "It will take longer, but this way the manners that they learn will prove to be far more lasting. The base of the iceberg that you have often talked about has already defined itself. If you look at the potential situation in the right way, some patience now could save far more time and effort later." interpret a patient's responses. If this had been nuclear-reactor engineering, Micky would already have. The killers had been even closer on his trail than he'd feared. What he sensed, stepping into that upstairs. Putting down the lemonade, Leilani relented: "Oh, all right. I'll bite. When were you shot in the head, As Chaurez finished speaking, an indicator announced an incoming call from the Government Center. "Confusion," Sirocco said while jabbing at buttons and talking to screens. "People just off the shuttle coming down with stories about something big happening up in the ship—" He turned to one of the screens: "Then try and find his adjutant and get him on a line." Then back to Colman. Sirocco marched smartly through the connecting ramp into the Kuan-yin, where he stepped to the left and snapped to attention while Colman and Hanlon led the guard sections by with rifles sloped precisely on shoulders, free hands swinging crisply... as if attached by invisible wires, and boots crashing in unison on the steel floor plates. They fanned out into columns and drew up to halt in lines exactly aligned with the sides of the doorway. Behind them the officers emerged four abreast and divided into two groups to follow Colonel Wesserman to the left and General Portney to the right. Colman sighed. "It's not anything like that. It's just—" Anita waved a hand in front of her face. "It's okay. You don't want me around... you don't want me around. It's okay." Her voice was staging to rise and fall in singsong fashion. "Who says I need anybody to have a good time, anyhow? I'm fine, see. It's okay .... You and I can go talk about brains and trains." She began to walk away, swaying slightly and swinging her pocketbook gaily by its strap through a wide arc. "It's been kind of... an unorthodox operation." The theory opened up whole new realms, Pernak was beginning to appreciate as he sat back in his office to give his mind a rest from absorbing the information being presented on the wall screen opposite. What he was starting to glimpse hadn't just to do with the physics; it was the completely new philosophy of existence that came with the physical interpretation.
